SHAUN ROSELT

Senior Software Engineer

PROFILE

I am a proactive individual with a burning passion for creating beautiful and stunning solutions that work across all platforms.

I have close to 10 years of experience with various languages and frameworks with Delphi always being my go-to language over the years. My preference lies with Software Design and Development

I have also worked with a lot of different web technologies in the past 10 years such as HTML5, CSS3, JavaScript, JQuery, PHP, SQL, Bootstrap, React, WordPress, etc.

💼 EXPERIENCE

March 2019 – Present

SENIOR SOFTWARE ENGINEER
Nerospec

- Develop cross-platform apps and services using Delphi (VCL & Fire-Monkey).
- Develop websites using HTML5, CSS3, JavaScript, PHP, SQL, and WordPress.
- Coached, monitored, and trained teammates.
- Meet with clients and design product specifications accordingly.

March 2017 – Present

EMBARCADERO MVP
Delphi, C++ Builder, FireMonkey

- Embarcadero's MVP (Most Valuable Professional) program chooses the "best of the best" Embarcadero community members to be trusted assets for our customers and prospects. An MVP is passionate about Embarcadero products and the success of everyone who uses them. An MVP evangelizes (cheers for, promotes, teaches about, etc.) Embarcadero products by writing and speaking on the elegance, simplicity and productivity of the products at user groups, conferences, and webinars, and in websites, articles, newsgroups, blogs and social networks.

April 2018 – December 2018

PHP WEB DEVELOPER
CyberDevs

- Developed websites using HTML5, CSS3, JavaScript, PHP, SQL, and WordPress.
- Had meetings with clients and worked on marketing/SEO for current and future client websites.

November 2017 – June 2018

WEB DEVELOPER
Gantic Solutions

- Developed websites using HTML5, CSS3, and WordPress.
- Developed apps for Windows and Android using Delphi (FireMonkey).

SHAUN ROSELT
